REMARKS

25X1

1. According to a decree of the Halle regional railroad headquarters, freight cars will be distributed by a central car office attached to the central railroad headquarters, effective 1 September 1950. The railroad car sub-distribution points previously attached to the railroad offices will be deactivated on the same day. \*

\* [REDACTED] Comment. The measure will bring about a stricter control of the entire rail freight traffic. It was presumably taken to meet the existing shortage of freight cars of all kinds by a stricter control and reduction of the round-trip time of these cars.
